About Me

I am a Backend Developer with 9 years of experience in designing, developing and optimizing server-side systems. Deep expertise in Node.js and Spring Boot frameworks. Extensive experience in building secure, efficient APIs and working with various databases] and NoSQL. I am committed to writing clean, maintainable and scalable code.

WORK EXPERIENCE

2023/07/14 - 2024/05/31

Sutunam Vietnam

Mobile Developer

- Build complex navigation flows between screens.
- Ensure the user experience is smooth, natural, and adheres to platform-specific design principles

2022/02/06- 2023/06/14

FPT Software

Frontend Engineer

- Build complete user interfaces, pages and reusable components.
- Develop Single Page Applications or Multi-Page Applications depending on the project architecture.

2021/02/01 - 2022-01-07

Shopee Vietnam

Java Developer

- Design fault-tolerant systems, ensuring that a single service failure does not bring down the entire system.
- Build services that can handle high throughput and low latency.
